At Artola, we believe it is fire that brings people together outdoors. Fire provides heat to prepare meals. Fire keeps people warm and creates a cosy ambience. Most of all, though, fire reaches into people's hearts and rouses their burning desire to reconnect with themselves and each other. Fire kindles the spirit of togetherness.

After creating miracle cookware – pots, pans, smoker ovens and the 'wonder pan' – for over 50 years, we are now proud to introduce fiQ, our revolutionary BBQ fire pit crossover.

## fiQ CIRCLE

The fiQ circle consists of a BBQ grill ring and a range of seats and [side] tables. This BBQ fire pit cross-over enables you to prepare delicious meals as well as provide an open fire for family and friends to sit around and enjoy each other's company.

fiQ is modular, with a height-adjustable interface that makes the grill interchangeable with other grill plates, grids or a wok holder. The AirQontrol air inlet enables heat regulation and the easyQlean surface and ash tray turn the task of cleaning fiQ into child's play.

**Interface: adjustable**

The adjustable interface enables the grill to be interchanged with other grill plates, grids or a wok holder.

**AirQontrol**

The airQontrol air inlet allows for easy heat regulation, resulting in better fuel burning and thus less smoke.

**Accessory range**

Various accessories can be hung on the specially designed circular fiQ side table and accessory holder.

## HOSPITALITY AND CATERING CONCEPTS

What is it that attracts your customers? Sure, the meals and drinks you serve, the atmosphere, the interior design and where your business is located will most certainly influence your customers' choice. However, the most important factor is the sense of connection.

fiQ's modular hospitality and catering concepts provide you with a wide range of complementary products with which you can create the atmosphere that makes people connect. Once connected, they will prolong their stay and feel encouraged to keep coming back with friends and family.
